Board of Governors of the Federal Reserve System

Annual Report of Holding Companies—FR Y-6

Report at the close of business as of the end of fiscal year

This Report is required by law: Section 5(c)(1)(A) of the Bank Holding Company Act (12 U.S.C. § 1844(c)(1)(A)); sections 8(a) and 13(a) of the International Banking Act (12 U.S.C. §§ 3106(a) and 3108(a)); sections 11(a)(1), 25, and 25A of the Federal Reserve Act (12 U.S.C. §§ 248(a)(1), 602, and 611a); and sections 113, 165, 312, 618, and 809 of the Dodd-Frank Act (12 U.S.C. §§ 5361, 5365, 5412, 1850a(c)(1), and 5468(b)(1)). Return to the appropriate Federal Reserve Bank the original and the number of copies specified.

This report form is to be filed by all top-tier bank holding companies, top-tier savings and loan holding companies, and U.S. intermediate holding companies organized under U.S. law, and by any foreign banking organization that does not meet the requirements of and is not treated as a qualifying foreign banking organization under Section 211.23 of Regulation K (12 C.F.R. § 211.23). (See page one of the general instructions for more detail of who must file.) The Federal Reserve may not conduct or sponsor, and an organization (or a person) is not required to respond to, an information collection unless it displays a currently valid OMB control number.

NOTE: The *Annual Report of Holding Companies* must be signed by one director of the top-tier holding company. This individual should also be a senior official of the top-tier holding company. In the event that the top-tier holding company does not have an individual who is a senior official and is also a director, the chairman of the board must sign the report. If the holding company is an ESOP/ESOT formed as a corporation or is an LLC, see the General Instructions for the authorized individual who must sign the report.

I, Linda L. Ramsey
Name of the Holding Company Director and Official

Secretary/Treasurer
Title of the Holding Company Director and Official

attest that the *Annual Report of Holding Companies* (including the supporting attachments) for this report date has been prepared in conformance with the instructions issued by the Federal Reserve System and are true and correct to the best of my knowledge and belief.

With respect to information regarding individuals contained in this report, the Reporter certifies that it has the authority to provide this information to the Federal Reserve. The Reporter also certifies that it has the authority, on behalf of each individual, to consent or object to public release of information regarding that individual. The Federal Reserve may assume, in the absence of a request for confidential treatment submitted in accordance with the Board's "Rules Regarding Availability of Information," 12 C.F.R. Part 261, that the Reporter and individual consent to public release of all details in the report concerning that individual.

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
FCNB Bancorp, Inc. and Subsidiary
Fayetteville, West Virginia

Report on Financial Statements

We have audited the accompanying consolidated financial statements of FCNB Bancorp, Inc. and Subsidiary, which comprise the consolidated balance sheets as of December 31, 2016 and 2015, and the related consolidated statements of income, comprehensive income, changes in shareholders' equity, and cash flows for each of the three years in the period ended December 31, 2016, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of FCNB Bancorp, Inc. and its subsidiary as of December 31, 2016 and 2015, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2016, in accordance with accounting principles generally accepted in the United States of America.

FCNB BANCORP, INC. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1. Significant Accounting Policies

Nature of business: FCNB Bancorp, Inc. is a bank holding company incorporated in West Virginia. The wholly owned bank subsidiary, Fayette County National Bank (the Bank), is a commercial bank with operations in Fayette County, West Virginia. The Bank provides consumer and commercial loans and deposit services principally to individuals and small businesses in Fayette County, West Virginia and the surrounding area.

Basis of presentation: The accounting and reporting policies of FCNB Bancorp, Inc. (the Company) and its wholly owned subsidiary conform to generally accepted accounting principles and to general practices within the banking industry.

Principles of consolidation: The accompanying consolidated financial statements include the accounts of FCNB Bancorp, Inc., and its subsidiary, Fayette County National Bank. All significant intercompany transactions have been eliminated in consolidation.

Accounting estimates: The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reported period. Actual results could differ from those estimates. For the year ended December 31, 2016, we evaluated subsequent events through January 31, 2017.

Presentation of cash flows: For purposes of reporting cash flows, cash and due from banks includes cash on hand and amounts due from banks (including cash items in process of clearing). Cash flows from demand deposits, NOW accounts, savings accounts, federal funds sold and federal funds purchased are reported net since their original maturities are less than three months. Cash flows from loans and certificates of deposit and other time deposits are reported net.

Securities: Debt and equity securities are classified as "held to maturity", "available for sale" or "trading" according to management's intent. The appropriate classification is determined at the time of purchase of each security and re-evaluated at each reporting date.

Securities held to maturity - Debt securities for which the Bank has the positive intent and ability to hold to maturity are reported at cost and adjusted for amortization of premiums and accretion of discounts. There are no securities classified as held to maturity at December 31, 2016 and 2015.

Securities available for sale - Securities not classified as "held to maturity" or as "trading" are classified as "available for sale". Securities classified as "available for sale" are those securities the Bank intends to hold for an indefinite period of time, but not necessarily to maturity. "Available for sale" securities are reported at fair value, net of unrealized gains or losses, which are adjusted for applicable income taxes and reported as a separate component of shareholders' equity.

Trading securities - There are no securities classified as "trading" in the accompanying financial statements.

Realized gains and losses on sales of securities are recognized on the specific identification method. Amortization of premiums and accretion of discounts is computed using methods which approximate the interest method of accounting.

FCNB BANCORP, INC. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Other than temporary impairment: Declines in the fair value of available for sale and held to maturity securities that are deemed to be other than temporary are reflected in earnings as realized losses. In estimating other than temporary impairment losses, management considers (1) the length of time and the extent to which the fair value has been less than cost, (2) the financial condition and near-term prospects of the issuers, and (3) the intent and ability of the company to retain its investment in the issuer for a period of time sufficient to allow for an anticipated recovery in fair value. In addition, the risk of future other than temporary impairment may be influenced by additional bank failures, prolonged recession in the U.S. economy, changes to real estate values, interest deferrals and whether the Federal government provides assistance to financial institutions.

Loans and allowance for loan losses: Loans are stated at the amount of unpaid principal and reduced by an allowance for loan losses.

The allowance for loan losses is maintained at a level considered adequate to provide for losses that can be reasonably anticipated. The allowance is increased by provisions charged to operating expense and reduced by net charge-offs. The Bank makes continuous credit reviews of the loan portfolio and considers current economic conditions, historical loan loss experience, review of specific problem loans and other factors in determining the adequacy of the allowance for loan losses. Loans are charged against the allowance for loan losses when management believes that the collectibility of the principal is unlikely. While management uses the best information available to make its evaluation, future adjustments to the allowance may be necessary if there are significant changes in economic conditions.

For all loans, interest is accrued daily on the outstanding balances using methods which generally result in a level rate of return.

Certain direct loan origination fees and costs, net, are deferred and amortized as adjustments of the related loan yields over the estimated contractual lives of the loans.

A loan is impaired when, based on current information and events, it is probable that the Bank will be unable to collect all amounts due in accordance with the contractual terms of the specific loan agreement. Impaired loans, other than certain large groups of smaller-balance homogeneous loans that are collectively evaluated for impairment, are required to be reported at the present value of expected future cash flows discounted using the loan's original effective interest rate or, alternatively, at the loan's observable market price, or at the fair value of the loan's collateral if the loan is collateral dependent. The method selected to measure impairment is made on a loan-by-loan basis, unless foreclosure is deemed to be probable, in which case the fair value of the collateral method is used.

Generally, loans are placed on non-accrual status when principal or interest is greater than 90 days past due based upon the loan's contractual terms. Interest is accrued daily on impaired loans unless the loan is placed on non-accrual status. Impaired loans are placed on non-accrual status when the payments of principal and interest are in default for a period of 90 days, unless the loan is both well-secured and in the process of collection. Interest on non-accrual loans is recognized primarily using the cost-recovery method. Loans may be returned to accrual status when repayment is reasonably assured and there has been demonstrated performance under the terms of the loan or, if applicable, the terms of the restructured loans.

Loans held for sale: Loans held for sale are those loans the Bank has the intent to sell in the foreseeable future. They are carried at the lower of aggregate cost or market value. Gains and losses on sales of loans are recognized at settlement dates and are determined by the difference between the sales proceeds and the carrying value of the loans.

FCNB BANCORP, INC. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Concentrations of credit risk: Fayette County National Bank predominately grants installment, commercial and residential loans to customers in Fayette County, West Virginia. Although the Bank has a diversified loan portfolio, a substantial portion of its debtor's ability to honor their contracts is dependent upon the mining, whitewater rafting and tourism sectors of the economy as well as commercial 1-4 residential rental properties.

Bank premises and equipment: Bank premises and equipment are stated at cost less accumulated depreciation. Depreciation is computed primarily by the straight-line method for bank premises and equipment over the estimated useful lives of the assets. Repairs and maintenance expenditures are charged to operating expenses as incurred. Major improvements and additions to premises and equipment are capitalized.

Other real estate: Other real estate consists primarily of real estate held for resale which was acquired through foreclosure on loans secured by such real estate. At the time of acquisition, these properties are recorded at the lower of cost or fair value, less the estimated cost to sell the asset, with any write-down being charged to the allowance for loan losses. Expenses incurred in connection with operating these properties are charged to operating expenses. Gains and losses on the sales of these properties are credited or charged to operating income in the year of the transactions.

Income taxes: The consolidated provision for income taxes includes Federal and state income taxes and is based on pretax income reported in the financial statements, adjusted for transactions that may never enter into the computation of income taxes payable. Deferred tax assets and liabilities are determined based on differences between the financial statement and tax bases of assets and liabilities that will result in taxable or deductible amounts in the future based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

Valuation allowances are established when deemed necessary to reduce deferred tax assets to the amount expected to be realized within a short term.

Basic earnings per share: Basic earnings per common share is computed based upon the weighted average shares outstanding. The weighted average shares outstanding were 9,690, 9,682 and 9,722 for each of the three years in the three year period ending December 31, 2016.

Reclassifications: Certain amounts in the consolidated financial statements for 2016 and 2015, as previously presented, have been reclassified to conform to current year classifications.

Significant Authoritative Guidance: ASU 2015-01, *Income Statement - Extraordinary and Unusual Items (Subtopic 225-20) - Simplifying Income Statement Presentation by Eliminating the Concept of Extraordinary Items* eliminates from U.S. GAAP the concept of extraordinary items, which, among other things, required an entity to segregate extraordinary items considered to be unusual and infrequent from the results of ordinary operations and show the item separately in the income statement, net of tax, after income from continuing operations. ASU 2015-01 was effective January 1, 2016, and did not have a significant impact on the financial statements.

ASU 2015-03, *Interest-Imputation of Interest (Subtopic 835-30) - Simplifying the Presentation of Debt Issuance Costs* specifies that debt issuance costs related to a recognized liability are to be reported in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. The recognition and measurement guidance for debt issuance costs are not affected by the amendments in this ASU. ASU 2015-03 was effective January 1, 2016 and did not have a significant impact on the financial statements.

FCNB BANCORP, INC. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

ASU 2016-01, *Financial Instruments – Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities*, among other things, (i) requires equity investments, with certain exceptions, to be measured at fair value with changes in fair value recognized in net income, (ii) simplifies the impairment assessment of equity investments without readily determinable fair values by requiring a qualitative assessment to identify impairment, (iii) eliminates the requirement for public business entities to disclose the methods and significant assumptions used to estimate the fair value that is required to be disclosed for financial instruments measured at amortized cost on the balance sheet, (iv) requires public business entities to use the exit price notion when measuring the fair value of financial instruments for disclosure purposes, (v) requires an entity to present separately in other comprehensive income the portion of the total change in the fair value of a liability resulting from a change in the instrument-specific credit risk when the entity has elected to measure the liability at fair value in accordance with the fair value option for financial instruments, (vi) requires separate presentation of financial assets and financial liabilities by measurement category and form of financial asset on the balance sheet or the accompanying notes to the financial statements and (viii) clarifies that an entity should evaluate the need for a valuation allowance on a deferred tax asset related to available-for-sale. ASU 2016-01 will be effective January 1, 2019 and is not expected to have a significant impact on the financial statements.

ASU 2016-02, *Leases (Topic 842)* will, among other things, require lessees to recognize a lease liability, which is a lessee's obligation to make lease payments arising from a lease, measured on a discounted basis; and a right-of-use asset, which is an asset that represents the lessee's right to use, or control the use of, a specified asset for the lease term. ASU 2016-02 does not significantly change lease accounting requirements applicable to lessors; however, certain changes were made to align, where necessary, lessor accounting with the lessee accounting model and ASC Topic 606, Revenue from Contracts with Customers. ASU 2016-02 will be effective on January 1, 2020 and will require transition using a modified retrospective approach for leases existing at, or entered into after, the beginning of the earliest comparative period presented in the financial statements. This ASU is not expected to have a significant impact on the financial statements.

ASU No. 2016-13, *Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments*, requires the measurement of all expected credit losses for financial assets held at the reporting date based on historical experience, current conditions, and reasonable and supportable forecasts and requires enhanced disclosures related to the significant estimates and judgments used in estimating credit losses, as well as the credit quality and underwriting standards of an organization's portfolio. In addition, ASU 2016-13 amends the accounting for credit losses on available-for-sale debt securities and purchased financial assets with credit deterioration. ASU 2016-13 will be effective on January 1, 2021. The Bank is currently evaluating the potential impact of ASU 2016-13 on the financial statements.

ASU 2016-15, *Statement of Cash Flows (Topic 230) - Classification of Certain Cash Receipts and Cash Payments* provides guidance related to certain cash flow issues in order to reduce the current and potential future diversity in practice. ASU 2016-15 will be effective January 1, 2019 and is not expected to have a significant impact on the financial statements.

Note 2. Restrictions on Cash and Due From Banks

The Bank is required to maintain reserve balances in cash or on deposit with the Federal Reserve Bank, based on a percentage of deposits. The total of those reserve balances approximated $510,000 at December 31, 2016. The Bank has usable vault cash of $510,000, therefore, leaving no reserve balance required.

FCNB BANCORP, INC. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Impairment is evaluated considering numerous factors, and their relative significance varies case to case. Factors considered include the length of time and extent to which the market value has been less than cost; the financial condition and near-term prospects of the issuer; and the intent and ability to retain the security in order to allow for an anticipated recovery in market value. If, based on the analysis, it is determined that the impairment is other-than-temporary, the security is written down to fair value, and a loss is recognized through earnings.

The Bank has 31 securities in an unrealized loss position as of December 31, 2016. These securities are predominately rated investment grade securities and the unrealized losses are due to overall increases in market interest rates and not due to any underlying credit concerns of the issuers. The Bank has the intent and ability to hold such investments until maturity or market price recovery. Accordingly, the Bank has concluded that none of the securities in its investment portfolios are other-than-temporarily impaired at December 31, 2016.

The proceeds from sales, calls and maturities of securities, and principal payments received on mortgage backed obligations and the related gross gains and losses realized are as follows:

	Proceeds From			Gross Realized	
For the Years Ended December 31,	**Sales**	**Calls and Maturities**	**Principal Payments**	**Gains**	**Losses**
2016					
Securities available for sale	$ 493,961	$ 4,303,000	$ 15,321	$ 6,005	$ -
2015					
Securities available for sale	$ 966,292	$ 3,738,000	$ 3,933	$ 51,293	$ -
2014					
Securities available for sale	$ 1,203,150	$ 3,366,350	$ -	$ 4,203	$ -

At December 31, 2016 and 2015, securities with amortized costs of $22,680,934 and $21,201,584, respectively, with estimated fair values of $22,890,954 and $21,754,100, respectively, were pledged to secure public deposits and for other purposes required or permitted by law.

Included in obligations of states and political subdivisions at December 31, 2016, are certain obligations to the following states and their political subdivisions:

West Virginia	$ 1,844,298
Pennsylvania	$ 1,134,547

There are no significant concentrations to any one political subdivision or agency within these states.

FCNB BANCORP, INC. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 4. Loans

Loans are summarized as follows:

	December 31, 2016	December 31, 2015
Commerical, financial and agricultural	$ 8,998,724	$ 9,199,438
Real estate- mortgage	46,698,212	46,147,849
Real estate- unimproved/development land	2,766,353	3,151,078
Installment loans	3,173,292	3,296,198
Total loans	61,636,581	61,794,563
Less: Allowance for loan losses	726,576	729,891
Unamortized loan fees and costs, net	270,797	300,032
Loans, net	$ 60,639,208	$ 60,764,640

The following presents loan maturities as of December 31, 2016:

	Within 1 Year	After 1 but Within 5 Years	After 5 Years
Commerical, financial and agricultural	$ 422,377	$ 1,222,677	$ 7,353,670
Real estate - mortgage	1,365,551	1,280,482	44,052,179
Installment loans	339,388	2,469,408	364,496
Real estate - Unimproved/Development Land	-	85,225	2,681,128
Total Loans	$ 2,127,316	$ 5,057,792	$ 54,451,473

Loans due after one year with:	
Variable rates	$ 32,115,232
Fixed rates	27,394,033
	$ 59,509,265

The following table presents the non-accrual loans included in the net balance of loans at December 31, 2016 and 2015, respectively.

	December 31, 2016	December 31, 2015
Commercial real estate	$ 287,014	$ 51,661
Real Estate - mortgage	898,924	850,249
Real Estate - Unimproved/Development Land	49,912	28,587
Total	$ 1,235,850	$ 930,497

If interest on non-accrual loans had been accrued, such income would have approximated $60,000, $48,000 and $31,000 for the years ended December 31, 2016, 2015 and 2014, respectively.

FCNB BANCORP, INC. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

In the past the Bank has made loans, in the normal course of business, to its directors, officers and employees and will continue to make such loans in the future. At December 31, 2016 and 2015, outstanding loans of this nature totaled $652,263 and $915,259, respectively.

For the years ended December 31, 2016 and 2015, loans made to executive officers, directors and shareholders aggregating $60,000 or more to any one party totaled $294,458 and $159,673, respectively.

Loans are categorized into risk categories based on relevant information about the ability of borrowers to service their debt such as current financial information, historical payment experience, credit documentation, and current economic trends, among other factors. The loans are analyzed individually by classifying the loans as to credit risk. The Bank internally grades all new commercial loans. In addition, the Bank performs an annual loan review on all non-homogeneous commercial loans exceeding $125,000, at which time these loans are re-graded.

The following definition of risk grades are as follows:

Pass: Loans that are secured by cash and cash equivalents or have characteristics that reduce credit risk in the transaction, as well as minimal documentation exceptions or no identification risk of collection. The loan would not subsequently introduce loan-loss risk. They are loans that do not fit any of the other categories described below.

Watch: Loans that are generally satisfactory with the exception of supporting documentation, lack of financial information, defined source of repayment, previous slowness but currently paying as agreed. Typically, these loans will have a specific plan of action by the loan office, documented on the Commercial Summary, to correct the deficiencies, provide a plan of repayment, or work the credit out of the Bank.

Special Mention: The assets in this category are currently protected but are potentially weak. Those assets constitute an undue and unwanted credit risk but not to the point of justifying a classification of substandard. Credit risk may be relatively minor yet constitute an unwarranted risk in light of the circumstances surrounding a specific asset.

Substandard: Loans inadequately protected by the current sound net worth and paying capacity of the obligor, or pledged collateral, if any. There is a distinct possibility that the Bank will sustain some loss if the deficiencies are not corrected.

Doubtful: Loans that will have all the weaknesses inherent in a substandard loan with the added factor that the weaknesses are pronounced to a point where collection or liquidation in full is highly improbable.

Loss: Loans that are considered to be un-collectible and of such little value that their continuance as active assets of the Bank is not warranted. This assignment does not mean that an asset has absolutely no recovery or salvage value, but simply that is not practicable or desirable to defer writing off the basically worthless asset, even though partial recovery may be affected in the future.

The following table presents the recorded investment in loans that are graded based on the risk associated with the loan. For the years ended December 31, 2016 and 2015.

Less: Net losses	43,315	40,503	57,600
Provision for loan losses	40,000	30,000	70,000
Balance, end of year	$ 726,576	$ 729,891	$ 740,394

FCNB BANCORP, INC. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The allowance is comprised of three distinct reserve components: (1) specific reserves related to loans individually evaluated, (2) quantitative reserves related to loans collectively evaluated, and (3) qualitative reserves related to loans collectively evaluated. A summary of the methodology the Bank employs on a quarterly basis with respect to each of these components in order to evaluate the overall adequacy of our allowance for loan losses is as follows.

Specific Reserve for Loans Individually Evaluated

The Bank identifies loan relationships having aggregate balances of $125,000 and greater and that may also have credit weaknesses. Such loan relationships are identified primarily through the analysis of internal loan evaluations, past due loan reports, and loans adversely classified by regulatory authorities. Each loan so identified is then individually evaluated to determine whether it is impaired – that is, based on current information and events; it is probable that the Bank will be unable to collect all amounts due in accordance with the contractual terms of the underlying loan agreement. The Bank measures impairment based on the fair value of the loan's collateral, which is generally, determined utilizing current appraisals. A specific reserve is established in an amount equal to the excess, if any, of the recorded investment in each impaired loan over the fair value of its underlying collateral, less estimated costs to sell.

Quantitative Reserve for Loans Collectively Evaluated

Second, the Bank stratifies the loan portfolio into the following loan pools: commercial, commercial real estate, residential 1-4 family, residential construction, consumer and other. Loans within each pool are then further segmented between (1) loans which were individually evaluated for impairment and not deemed to be impaired, (2) smaller-balance homogenous loans.

Quantitative reserves relative to each loan pool are established using an allocation equaling 100% of the respective pool's average 12 month net loan charge-off rate (determined based upon the most recent twelve quarters) which is applied to the aggregate recorded investment in the smaller-balance homogenous pool of loans.

Qualitative Reserve for Loans Collectively Evaluated

Third, the Bank considers the necessity to adjust the average historical net loan charge-off rates relative to each of the above loan pools for potential risk factors that could result in actual losses deviating from prior loss experience. Such qualitative risk factors considered are: (1) levels of and trends in delinquencies and impaired loans, (2) levels of and trends in charge-offs and recoveries, (3) trends in volume and term of loans, (4) effects of any changes in risk selection and underwriting standards, and other changes in lending policies, procedures, and practice, (5) experience, ability, and depth of lending management and other relevant staff, (6) national and local economic trends and conditions, (7) industry conditions, and (8) effects of changes in credit concentrations.

For purposes of evaluating impairment, the Bank considers groups of smaller-balance, homogeneous loans to include; mortgage loans secured by residential property, other than those which significantly exceed the bank's typical residential mortgage loan amount (currently those in excess of $30,000); and installment loans to individuals, exclusive of those loans in excess of $30,000.

The following tables set forth the Bank's impaired loan information by class of loans:

For quarterly loan review purposes, the bank only includes loans risk graded in their system as "substandard" or higher. The above balances for loans individually evaluated for impairment include only such loan balances and related allowances. The bank does; however, review a larger number of loans on a recurring basis for internal purposes.

The following tables present by class the troubled debt restructurings (TDR) that were restructured during the year ended December 31, 2016 and 2015. Generally, the modifications were extensions of term, modifying the payment terms from principal and interest to interest only for an extended period, or reduction in interest rate. All TDRs are evaluated individually for allowance for loan loss purposes:

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 6. Bank Premises and Equipment

The major categories of bank premises and equipment and accumulated depreciation at December 31, 2016 and 2015 are summarized as follows:

	2016	2015
Land	$ 392,660	$ 392,660
Buildings and improvements	1,938,281	1,852,823
Furniture and equipment	937,991	896,457
	3,268,932	3,141,940
Less accumulated depreciation	2,044,792	1,975,561
Bank premises and equipment, net	$ 1,224,140	$ 1,166,379

Depreciation expense for the years ended December 31, 2016, 2015 and 2014, totaled $90,134, $89,362 and $93,709, respectively.

Note 7. Deposits

The following is a summary of interest bearing deposits by type at December 31, 2016 and 2015, respectively.

	2016	2015
NOW accounts	$ 17,272,276	$ 16,035,825
Money market accounts	9,999,258	14,274,800
Savings accounts	22,652,006	23,192,067
Certificates of deposit	9,730,172	8,429,819
Total	$ 59,653,712	$ 61,932,511

Time certificates of deposit in denominations of $100,000 or more totaled $5,136,402 and $3,936,087 as of December 31, 2016 and 2015, respectively. Interest expense on such certificates of deposit was $49,429, $32,816 and $52,567 for the years ended December 31, 2016, 2015 and 2014, respectively.

The following is a summary of the maturity distribution of certificates of deposit in amounts of $100,000 or more as of December 31, 2016:

	2016	
	Amount	Percent
Three months or less	$ 2,880,569	56.0%
Three through six months	505,009	10.0%
Six through twelve months	639,636	12.0%
Over twelve months	1,111,189	22.0%
Total	$ 5,136,403	100.0%

FCNB BANCORP, INC. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

At December 31, 2016, the scheduled maturities of all certificates of deposits are as follows:

2017	$ 7,226,829
2018	1,927,147
2019	330,146
2020 and thereafter	246,050
Total time deposits	$ 9,730,172

The Bank is a holder of deposits for two local governmental entities approximating $11,830,952 at December 31, 2016, which represents a concentration.

The Bank is a holder of related party deposits approximating $1,956,704 and $1,741,935 at December 31, 2016 and 2015, respectively.

Note 8. Other Borrowings

The Bank has short-term borrowings under the line of credit for the purchase of Federal Funds at an amount not to exceed $2,400,000. Other short-term borrowings consist of lines of credit from the Federal Home Loan Bank (FHLB) under its RepoPlus Program. Borrowings under this arrangement will be granted for terms of 1 to 364 days and will bear interest at both fixed and variable rates set at the time of the funding request with variable rates subject to change each month. Also, included in other borrowings are borrowings from the FHLB under its Mid Term Repo-Fixed and RepoPlus-Fixed Programs that will mature during the year ending December 31, 2017. These lines of credit are secured by a blanket lien on all unpledged and unencumbered assets of the subsidiary bank.

Additional details regarding short-term borrowings during the years ended December 31, 2016 and 2015 are presented below.

	2016	
	Federal Funds Purchased	FHLB Borrowings
Oustanding at year end	$ -	$ 7,000,000
Average amount outstanding during the year	$ -	$ 5,139,686
Maximum amount outstanding at any month end	$ -	$ 7,000,000
Weighted average interest rate	0.00%	0.64%

	2015	
	Federal Funds Purchased	FHLB Borrowings
Oustanding at year end	$ -	$ 5,000,000
Average amount outstanding during the year	$ 822	$ 7,598,904
Maximum amount outstanding at any month end	$ -	$ 10,000,000
Weighted average interest rate	0.21%	0.35%

FCNB BANCORP, INC. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 9. Income Taxes

The components of applicable income tax expense (benefit) for the years ended December 31, 2016, 2015 and 2014 are as follows:

	2016	2015	2014
Current:			
Federal	$ 252,479	$ 348,059	$ 279,969
State	13,723	18,743	15,152
	266,202	366,802	295,121
Deferred:			
Federal	7,042	4,278	6,717
State	621	378	593
	7,663	4,656	7,310
Total	$ 273,865	$ 371,458	$ 302,431

A reconciliation between the amount of reported income tax expense and the amount computed by multiplying the statutory income tax rate by book pretax income for the years ended December 31, 2016, 2015 and 2014, is as follows:

	2016		2015		2014	
	Amount	Percent	Amount	Percent	Amount	Percent
Computed tax at applicable statutory rate	$ 301,772	34.0	$ 387,929	34.0	$ 356,897	34.0
Increase (decrease) in taxes resulting from:						
State income taxes, net	9,057	1.0	12,370	1.0	10,000	1.0
Tax-exempt interest	(42,193)	(4.8)	(52,533)	(4.6)	(64,512)	(6.2)
Disallowed interest expense	907	0.1	871	0.1	1,197	0.1
Other, net	4,322	0.5	22,821	2.0	(1,151)	(0.1)
Applicable income taxes	$ 273,865	30.8	$ 371,458	32.5	$ 302,431	28.8

Deferred income taxes for 2016 and 2015 reflect the impact of "temporary differences" between amounts of assets and liabilities for financial reporting purposes and such amounts as measured for tax purposes. Deferred tax assets and liabilities represent the future tax return consequences of temporary differences, which will either be taxable or deductible when the related assets and liabilities are recovered or settled.

Management believes that the Bank will generate sufficient future taxable income to realize the deferred tax assets. Management continually reviews the need for a valuation allowance and will recognize tax benefits only as reassessment indicates that it is more likely than not that the benefits will be realized.

FCNB BANCORP, INC. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The tax effects of temporary differences which give rise to the Bank's deferred tax assets and liabilities as of December 31, 2016 and 2015 are as follows:

	2016		2015	
	Deferred Tax Assets	Deferred Tax Liabilities	Deferred Tax Assets	Deferred Tax Liabilities
Depreciation	$ -	$ 66,338	$ -	$ 61,877
Accretion on tax-exempts	-	-	-	2
Nonaccrual interest	58,721	-	42,481	-
Deferred loan origination fees	100,195	-	111,012	-
Allowance for loan losses	227,630	-	236,256	-
OREO writedown	2,135	-	2,135	-
Net unrealized loss/gain on securities	-	60,086	-	226,551
	$ 388,681	$ 126,424	$ 391,884	$ 288,430

As of December 31, 2016 and 2015, the Company had no unrecognized tax benefits. Such benefits would impact the effective tax rate if recognized. The Company is subject to U.S. Federal income tax examinations for returns filed after December 31, 2013. State income tax returns are generally subject to a period of examinations for a period of three to five years.

Note 10. Profit-Sharing Plans

The Bank maintains a profit-sharing plan for those employees who meet the eligibility requirements set forth in the plan. The amount of the annual contribution to the plan is at the discretion of the Bank's Board of Directors. The Bank charged $48,000, $48,000, and $48,000 to operations as a contribution to the plan for each of the years ended December 31, 2016, 2015, and 2014, respectively.

Note 11. Commitments and Contingencies

The Bank is involved in various legal actions arising in the ordinary course of business. In the opinion of management and counsel, these matters will not have a material adverse effect on the consolidated financial statements.

Financial instruments with off-balance sheet risk:

The Bank is a party of financial instruments with off-balance sheet risk in the normal course of business to meet the financing needs of its customers. These financial instruments include commitments to extend credit. Those instruments involve, to varying degrees, elements of credit and interest rate risk in excess of the amount recognized in the statement of financial position. The contract amounts of those instruments reflect the extent of involvement the Bank has in particular classes of financial instruments.

	Contract Amount	
	2016	2015
Commitments to extend credit	$ 1,315,651	$ 1,091,505
Total	$ 1,315,651	$ 1,091,505

FCNB BANCORP, INC. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The Bank's exposure to credit loss in the event of nonperformance by the other party to the financial instrument for commitments to extend credit is represented by the contractual amount of those instruments. The Bank uses the same credit policies in making commitments and conditional obligations as it does for on-balance sheet instruments.

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses and may require payment of a fee. The Bank evaluates each customer's credit worthiness on a case-by-case basis. The amount of collateral obtained if deemed necessary upon extension of credit is based on management's credit evaluation. Collateral held varies but may include accounts receivable, inventory, equipment or real estate.

Note 12. Restrictions on Dividends and Capital

The primary source of funds for the dividends paid by FCNB Bancorp, Inc. are dividends received from its subsidiary bank. Dividends paid by the Bank are subject to restrictions by banking regulations. The most restrictive provision requires approval by the regulatory agency if dividends declared in any year exceed the year's net income, as defined, plus the retained net profits of the two preceding years. During 2017, the net retained profits available for distribution as dividends from the Bank without regulatory approval are approximately $477,206 plus net retained income for the interim periods through the date of declaration.

The FCNB Bancorp, Inc. and subsidiary are subject to various regulatory capital requirements administered by Federal banking agencies. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, the Company and Bank must meet specific capital guidelines that involve quantitative measures of the assets, liabilities and certain off-balance-sheet items as calculated under regulatory accounting practices.

Quantitative measures established by regulation to ensure capital adequacy require a bank to maintain minimum amounts and ratios (set forth in the table below) of total and Tier I capital (as defined in the regulations) to risk-weighted assets (as defined), and of Tier I capital (as defined) to average assets (as defined). Management believes, as of December 31, 2016, that the Company and Bank meet all capital adequacy requirements to which they are subject.

The most recent notification from the Office of the Comptroller of the Currency categorized the Company and Bank as well capitalized under the regulatory framework for prompt corrective action. To be categorized as adequately capitalized the Bank must maintain minimum total risk-based, Tier I risk-based, common equity Tier 1 capital, and Tier I leverage ratios as set forth in the table. There are no conditions or events since that notification that management believes have changed the institution's category.

FCNB BANCORP, INC. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The Company and Bank's actual capital amounts and ratios are presented in the following table:

	Actual		For Capital Adequacy Purposes		To Be Well Capitalized Under Prompt Corrective Actions Provisions	
	Amount	Ratio	Amount	Ratio	Amount	Ratio
As of December 31, 2016:						
CET1 (to Risk-Weighted Assets)

Note 13. Fair Value Measurements

ASC Topic 820 "*Fair Value Measurements and Disclosures*" (ASC 820) defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC 820 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value.

Level 1: Quoted prices (unadjusted) or identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a company's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

Accordingly, securities available-for-sale are recorded at fair value on a recurring basis. Additionally, from time to time, the Bank may be required to record other assets at fair value

FCNB BANCORP, INC. AND SUBSIDIARY

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

on a nonrecurring basis, such as loans held for sale. These nonrecurring fair value adjustments typically involve application of lower of cost or market accounting or write-downs of individual assets.

The following is a description of valuation methodologies used for assets and liabilities recorded at fair value.

Available-for-Sale Securities: Investment securities available-for-sale are recorded at fair value on a recurring basis. Fair value measurement is based upon quoted prices, if available. If quoted prices are not available, fair values are measured using independent pricing models or other model-based valuation techniques such as the present value of future cash flows, adjusted for the security's credit rating, prepayment assumptions and other factors such as credit loss assumptions. Level 1 securities include those traded on an active exchange, such as the New York Stock Exchange, U.S. Treasury securities that are traded by dealers or brokers in active over-the-counter markets and money market funds. Level 2 securities include mortgage-backed securities issued by government sponsored entities, mortgage backed securities, certificate of deposits and municipal bonds. Level 3 securities include local community development bonds.

Assets at Fair Value on a Recurring Basis

The table below presents the recorded amount of assets measured at fair value on a recurring basis.

	Total at December 31,	Fair Value Measurements Using:		
Available for Sale Securities	**2016**	**Level 1**	**Level 2**	**Level 3**
U.S. Government agencies and corporations	$ 22,185,079	$ -	$ 22,185,079	$ -
Mortgage Backed securities - U.S. govt. agencies and corporations	-	-	-	-

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Assets Recorded at Fair Value on a Nonrecurring Basis

The Bank may be required, from time to time, to measure certain assets at fair value on a nonrecurring basis in accordance with U.S. generally accepted accounting principles. These include assets that are measured at the lower of cost or market that were recognized at fair value below cost at the end of the period. There were no assets recorded at fair value on a nonrecurring basis as of December 31, 2016 and 2015.

Note 14. Condensed Financial Statements of Parent Company

The investment of the Company in its wholly-owned subsidiary is presented on the equity method of accounting. Information relative to the Company's balance sheets at December 31, 2016 and 2015, and the related statements of income and cash flows for the years ended December 31, 2016, 2015 and 2014, is presented below:

Balance Sheets	2016	2015
Assets		
Cash	$ 99,127	$ 55,777

Fiscal Year Ending December 31, 2016

Report Item

1: The bank holding company prepares an annual report for its securities holders and is not registered with the SEC. As specified by the appropriate Reserve Bank, 2 copies are enclosed.

2a:

FCNB Bancorp, Inc. Fayetteville, West Virginia Incorporated in West Virginia	**"No LEI"**

100%

The Fayette County National Bank of Fayetteville Fayetteville, West Virginia Incorporated in West Virginia	**"No LEI"**

2b: Domestic branch listing provided to the Federal Reserve Bank via email on 3-2-17.

ATTACHMENT #3

Results: A list of branches for your holding company FCNB BANCORP, INC. (2355759) of FAYETTEVILLE, WV.
The data are as of 12/31/2016. Data reflects information that was received and processed through 01/10/2017.

Reconciliation and Verification Steps
1. In the **Data Action** column of each branch row, enter one or more of the actions specified below
2. If required, enter the date in the **Effective Date** column

Actions
OK: If the branch information is correct, enter 'OK' in the **Data Action** column.
Change: If the branch information is incorrect or incomplete, revise the data, enter 'Change' in the **Data Action** column and the date when this information first became valid in the **Effective Date** column.
Close: If a branch listed was sold or closed, enter 'Close' in the **Data Action** column and the sale or closure date in the **Effective Date** column.
Delete: If a branch listed was never owned by this depository institution, enter 'Delete' in the **Data Action** column.
Add: If a reportable branch is missing, insert a row, add the branch data, and enter 'Add' in the **Data Action** column and the opening or acquisition date in the **Effective Date** column.

If printing this list, you may need to adjust your page setup in MS Excel. Try using landscape orientation, page scaling, and/or legal sized paper.

Submission Procedure
When you are finished, send a saved copy to your FRB contact. See the detailed instructions on this site for more information.
If you are e-mailing this to your FRB contact, put your institution name, city and state in the subject line of the e-mail.

Note:
To satisfy the **FR Y-10 reporting requirements** you must also submit FR Y-10 Domestic Branch Schedules for each branch with a **Data Action** of Change, Close, Delete, or Add.
The FR Y-10 report may be submitted in a hardcopy format or via the FR Y-10 Online application - https://y10online.federalreserve.gov.

* FDIC UNINUM, Office Number, and ID_RSSD columns are for reference only. Verification of these values is not required.
