# Virginia: Low-Income Housing Tax Credit (LIHTC) Projects by Zip Code, 1987-2007

Note: Under the LIHTC Program, federal housing tax credits are awarded to developers of qualified affordable housing projects. Provided the property maintains compliance with the program requirements, investors receive a dollar-for-dollar credit against their Federal tax liability each year for 10 years. The credit is based on the amount invested in affordable housing.

Middle-Income, Non-Metropolitan Distressed & Underserved Census Tracts, 2011

Note: A non-metropolitan, middle-income census tract is considered distressed if it has an unemployment rate of at least 1.5 times the national average; a poverty rate of 20 percent or more; and/or a population loss of 10 percent or more between the previous census and the most recent census. A non-metropolitan, middle-income census tract is considered underserved if it meets criteria for population size, density and dispersion that indicate the area's population is sufficiently small, thin, and distant from a population center that the tract is likely to have difficulty financing essential community needs. The list of qualified census tracts is reviewed and updated annually.
