- Searches data products associated with topics selected
- Search Results reflect selections made
- Typically provides more specific/narrow list of Search Results
- Selections made will refine list of remaining Topics available for selection
- Limited to searching AFF2 available products only

# Search by Address & Reference Maps

The screenshot displays the 'Reference Maps' and 'Address Search' sections. The 'Reference Maps' section includes a dropdown menu set to 'United States' and a 'GO' button. The 'Address Search' section features a street sign icon and the text 'Find Census data by entering a street address.' To the right, a 'Select Geographies' dropdown menu is open, showing a search input field with the text 'Enter a geography name (Alabama, Marengo Co)'. The dropdown also lists 'Topics', 'Geographies (states, counties, places, ...)', and 'Population Groups'.

**Search by Address & Reference Maps can be accessed from the AFF Main Page or from their corresponding tabs in Geographies**

- See a list of geographies that are related to a specific address
- See a map of an area
- Use both options to select geographies to add search criteria to “Your Selections”

# Your Selections

Whenever search criteria is added to “Your Selections”, the Topics List, Geographies Search, Population Groups Search, Industry Code Search, and the Search Results will update to reflect the search criteria selected.
