Fifth District Survey of Service Sector Activity

June 27, 2023

Service Sector Activity Improved Modestly in June

Fifth District service sector activity improved modestly in June, according to the most recent survey by the Federal Reserve Bank of Richmond. The revenues and demand indexes increased to -3 and 6, respectively. Expectations for future revenue and demand also improved, with both indexes increasing to 11. Firms grew somewhat less pessimistic about local business conditions as that index rose slightly from -17 in May to -12 in June. Firms expected continued improvement, with the index for expected local business conditions increasing to -8 in June.

Two of the three spending indexes edged down slightly, with the capital expenditures index falling the most, from 3 in May to -2 in June. All three spending expectations indexes were positive in June, suggesting that many firms expect to increase spending over the next six months.

The employment index rose slightly to 4 in June and firms continued to report wage increases, while the availability of skills index increased to 7. Over the next six months, many firms expect to continue hiring and anticipate some improvement in their ability to find workers with the necessary skills. Most firms plan to continue wage increases.

The average growth in prices paid increased moderately in June, while the growth rate of prices received decreased slightly. Firms expect both growth rates to moderate over the coming year.

Technical Notes:

- ¹ Each index equals the percentage of responding firms reporting increase minus the percentage reporting decrease. Data are seasonally adjusted. Results are based on responses from 143-157 firms.
- ² Expectations refer to the time period six months out from the survey period.
- ³ Current price changes are percentage changes over the last 12 months.
Expected price changes are expected changes over the next 12 months.
- ⁴ All firms surveyed are located within the Fifth Federal Reserve District, which includes the District of Columbia, Maryland, North Carolina, South Carolina, Virginia, and most of West Virginia.
- ⁵ Seasonal adjustment factors are recalculated every July and the entire series is revised to better reflect current economic trends.
