Investment Connection Online Proposal

This proposal is one of numerous submissions housed in the applicant portal. After reviewing, please visit the portal for more ideas (applicants) and opportunities (funders).

Access to Capital for Entrepreneurs (ACE)

Primary Shymaine Davis Contact	-			
Title Director, Raymond Haysbert Entrepreneurial Center Email sdavis@gbul.org Address		Shymaine Davis		
Email Addresssdavis@gbul.orgAddressPhone410-523-8150Name of organizationGreater Baltimore Urban League organizationGreater Baltimore Urban League movement is to enable African Americans and other minorities to secure economic self-reliance, parity, power and civil rights.Overview of organizationEvery GBUL program aims to remove barriers and foster success. In 2017, the Raymond V. Haysbert, Sr. Center for Entrepreneurship provided workshops to 532 clients to break down complex business processes into actionable steps. Also at no cost, Haysbert Center clients can access business consultants for one-on-one guidance. GBUL s flagship youth program, the Saturday Leadership Program (SLP) convenes monthly at Baltimore colleges and serves 120 students grades 8-12. SLP brings youth to network with their peers, interact closely with African American role models from GBUL s Young Professionals Auxiliary, learn about notable African American Baltimoreans, build skills with demonstrated impact on college and career readiness, and become familiar with the college campus. In October 2018, GBUL launched Work Ready Maryland, a workforce development program serving 25 high school students aged 16-21 from Excel Academy, an alternative Baltimore City high school. Providing wrap-around supports, soft skills training, academic supports, and job or apprenticeship placement and coaching, the program employs evidence-based strategies supporting the effective transition to career post high school.Websitewww.gbul.orgState where proposal is locatedAccess to Capital for Entrepreneurs (ACE)WebsitesupportRequested\$150,000

	 Mayor's Office of Women and Minority Owned Businesses 		
	 Enoch Pratt Library 		
Proposal	The ACE project will provide 8-10 comprehensive workshops and one-on-one business		
narrative	development counseling strategies to at least 40 participants. In addition to collecting		
	basic socio-demographic characteristics to include personal and business name,		
	address, e-mail, type of business, the workshops will administer pre-test		
	questionnaires to evaluate business knowledge base questions, and attitudinal		
	questions which will constitute the intake data collection form. Post-test		
	questionnaires will be administered to measure improvements in knowledge.		
	Of the 40 applicants, the ACE project expects to administer the pre- and post-test		
	questionnaire to at least 30 participants for all the 10 workshops of whom 20 will have		
	successfully completed at least half of the 8-10 workshops.		
	Key Project Activities: A timeline for program and evaluation activities for the first		
	year is available.		
	The 2-hour workshop will be free and will cover sessions on 1. Developing a business		
	idea and writing a business plan; 2. Identifying a market and reaching		
	customers/clients; 3. Obtaining proper licenses and permits, and complying with tax		
	requirements; 4. Business Financing I: Financial needs for business and managing		
	finances; 5. Business Financing II. What do lenders look for and how to assess your		
	situation; 6. Business Finance III. Understanding debt financing basics, and the most		
	appropriate finance sources; 7. Business Financing IV. Requirements of Financial		
	Institutions and compilation of documents; 8. Legal rights and avoiding common legal		
	issues; 9. Business and Ethics; 10. Developing and Exit Plan.		
	The ACE project anticipates that all the 40 workshop participants will initiate the one-		
	on-one counseling to start a new business or grow/consolidate their current business		
	since the 2016-2018 GBUL report showed that in the 3-year period, 72 entrepreneurs		
	sought counseling for their business which was in existence or at infancy.		
Issues	 Asset Building / Financial Access, Capability and Empowerment 		
addressed			
Geographic	City-wide		
impact			
Population	The majority of adults have been chronically unemployed for so many years that they		
served	are no longer in the labor force (American Community Survey, 2018,		
	https://factfinder.census.gov/faces/nav/jsf/pages/community_facts.xhtml?src=bkmk).		
	Specifically, zip codes (21205, 21223, 21202, 21217, 21213,21216, 21201, 21215,		
	21230, and 21218) with high unemployment, increasing numbers in homelessness,		
	E1200, and E1210, with their diferiployment, increasing numbers in nomelessiless,

Investment Connection Online Proposal

	individuals aging out of the foster care system, individuals who have completed substance abuse treatment programs, individuals who are in or will be released from incarcerated settings, and individuals who have incomes that are near or below of the federal poverty line have witnessed recent decline in health and well-being. Furthermore, while the number and types of jobs offering a living wage may be increasing in Baltimore s technology, creative and financial centers, far too many of the city s poor and formerly middle-class find a roadblock to the on-ramp for these careers based on inadequate skill-sets or criminal backgrounds often amassed during their youth for charges that now (due to recent legislation) would no longer be deem arrestable offenses. And while many families in East and West Baltimore benefit from some modest level of financial subsidy or government resource such as SSI, Disability, TANF or Food Stamps, many more are ineligible for any such assistance.	
Population income	Low and Moderate Income census tract data for its Haysbert Center for Entrepreneurship	
	MEDIAN HOUSEHOLD INCOME (CENSUS TRACT) P	
	 Less than \$28,471 (below 30%) 	3%
	 \$28,471-\$47450 (below 50%) 	10%
	 \$47,451-\$74,320 (below 80%) 	54%
	\$74,321-\$94,900 (100%)	17%
	 More than \$94,901 (Above 100%) 	17%
	During the 2018-19 year, 3% of Haysbert Center for Entrepreneurship clients lived in high poverty neighborhoods where the median household income stands at less than 30% of the Baltimore PMSA median income of \$94,900.	
Anticipated	Two major outcomes based constructs are planned	d to be gathered for this project.
outcomes or		
impact	The operational definition for each of the key outcomes are as follows:	
	 At the end of first year of project period, measure changes in knowledge between pre- and post- workshops. Once funding for the ACE project has been achieved, the project team (Director and Data Analyst, Evaluator, Workshop Instructor) will meet to discuss each of the planned workshops and the expected knowledge to be gained during each of the two hour sessions. True/False, sequencing of business development steps, and mix/match metric will be designed to measure changes in knowledge based outcomes. At the end of the 1st year project period, measure: A. Number and Type of successful businesses created as a result of the workshop and/or counseling B. Total and Average Amount of Funding received to create the business C. Number and Type of successful businesses consolidated as a result of the workshop and/or counseling D. Total and Average Amount of Funding received to consolidate the business 	

Federal Reserve Bank of Richmond

	For the purposes of the proposed ACE project, the term consolidation refers to the
	process of making the existing business stronger or more solid.
Evaluation methods used to measure success	There is evidence of theoretical underpinning for providing a combination of workshops followed by one-on-one counseling for business development and growth in a city with racial and economic inequality toward business and entrepreneurship (Robb 2012; Robb and Morelix, 2016; Bradford and Mijid, 2016) in urbanized areas such as Baltimore City. The underlying etiology for such inequality is a cumulation and interaction of many symptoms such as the lack of access to capital that minorities and women face which is not as prevalent for white male entrepreneurs. Three key reasons of economic inequality are cited: a) weak networks and business relationships, b) inadequate self-fund raising capabilities, and c) underlying institutional racism and sexism(Robb and Morelix, 2016).
	Addressing the above three key components to the access to capital problem is essential to develop strategies to level the playing field because thru workshops and individualized counseling these strategies will address these causes of the gap in access to capital, otherwise these efforts will not be sustainable nor will they have long-term impact (Lambert 2008; Wiklund et al., 2011; Oosthuizen 2017).
	Using the business workshops, one-on-one counseling, follow-up, and documented communication with financial institutions, the ACE pilot project aims to effectively utilize business and interpersonal strategies to overcome the challenges faced by minority entrepreneurs.
