

INTERNATIONAL GROUP SERVICES

Partnering with your business to find solutions and opportunities.

By utilizing Fulton International Group's services, your business has access to products typically found only at larger financial institutions. Our customers have access to a full suite of specialized global financial products while receiving the attention of a small, dedicated international banking staff, rather than a large call center.

Our commitment to serving your international banking needs is unique in the industry. Whether your business is embarking on its first international transaction or you are experienced in international trade, our specialists provide the personal service you need to help increase your business's cash flow and reduce risk.

Key Services offered by the Fulton International Group:

Foreign Exchange

Expert service to assist you in reducing the risk of dealing in foreign currencies. By implementing both global payable and receivable ideas, we can protect and increase your revenue.

International Funds Transfer

Helping you move funds overseas quickly and safely. With access to thousands of correspondent banking institutions around the world, payments can be made in U.S. dollars or in a number of different foreign currencies.

Paper Banknote Currency Exchange

With over 60 currencies available, we can supply funds for many well-known locations and exotic locales. Orders can be taken via phone, branch or the Internet – and daily rates are posted online. Upon return, the currency may be exchanged at your local Fulton Financial Corporation affiliate bank for U.S. dollars.

Trade Finance

Pre- and post-export financing, delivered through direct loans, receivable financing, Bankers' Acceptances (BAs) and more, with rates that are market driven and very competitive.

Commercial Letters of Credit

Expert service to help you minimize risk and maximize cash flow by guiding you through the process of obtaining Import or Export Letters of Credit (L/Cs), from issuance, tracking, to finalizing payments.

Collections - Whether it's delivering documents against payment or acceptance, single check collections, or a variety of other needs, we provide a highly efficient documentary collection service utilizing both responsiveness and flexibility.
