

Publications for College Fed Challenge Participants

[*Econ Focus*](#) is the Richmond Fed's quarterly economics magazine. It covers economic issues affecting the Fed, the Fifth Federal Reserve District, and the nation in a way that's accessible to all readers. Each issue includes current topics being discussed at the Fed that you won't find in textbooks, such as:

- [How market concentration might affect Fed policy](#)
- [Why has wage growth been slow despite a strong economic recovery?](#)
- [What's behind low inflation?](#)

Published monthly, the [*Economic Brief*](#) series highlights the latest research from Richmond Fed economists in a short, digestible format. Recent topics include:

- [The impact of higher global temperatures on economic growth](#)
- [Why asset bubbles may worsen recessions](#)
- [Estimating the size of fiscal multipliers](#)
