## Education Levels

1. Less than High School
2. High School Diploma
3. Certificate
4. Associate’s Degree
5. Bachelor’s Degree
6. Master’s Degree
7. Doctoral or Professional Degree
Post-Secondary Education Level Descriptions

Certificate - A certificate is a non-degree award designed to prepare for a specific job. A certificate is earned after high school by completing a program typically taking 2 years or less.

Associate’s Degree - An associate’s degree is earned by at least 2 years of study after high school. Many associate’s degrees are career-focused to prepare for a job in a science, health or technical field. Associate’s degrees can also be a first step toward completing a bachelor’s degree.

Bachelor’s Degree - A bachelor’s degree is earned by completing 4-5 years of study after high school. Bachelor’s degrees can offer a general liberal arts education as well as focus on a specific area of study.

Master’s Degree - A master’s degree is awarded after successful completion of 2 years of study after a bachelor’s degree. The master’s degree is often sought for career development, personal growth, academic research or to prepare for further education.

Doctoral or Professional Degree – A doctoral or professional degrees typically take between 3+ years of study after a bachelor’s degree. Doctoral and professional degrees are the highest academic or professional award that can be earned in a specific field of study.
